

Meet Ms. Remmert!

We are overjoyed to officially welcome a familiar and beloved face to our teaching staff this year at St. Mary's!

Born and raised right here in Metamora, she's a proud mom of 4 children who represent the 4th generation of her family at St. Mary's. They have been lifelong supporters of our school's mission and spirit and over the years she has done it all, from cook to Athletic Committee President. She's thrilled to now wear the title of Music & Art Teacher.

Her heart beats for the arts, and she hopes to inspire our students to discover the joy and beauty that comes from creativity.

Whether music or art, her goal is to stir a love for the gifts God gives us and to remind our children that "it's awesome to shine where God gives you strengths."

She has played piano since she was 7 and hopes to learn the guitar soon. You can find her & her family often times playing and singing at mass, sharing the beautiful talents with our parish community. She started playing piano when she was 7, and loves all kinds of music. She believes "music" was always her sport. She doesn't have a favorite color because she loves them all, as "God paints a beautiful world."

When not at school, she enjoys gardening, flowers, milk chocolate and spending time with family and friends. We are so blessed to have her on staff this year and can't wait to see the joy, color and creativity she brings to our students' lives!
